

The HG-15 is a two way midbass-high range loudspeaker box, including one 15" and one 2" driver, full horn loaded. The box has very high efficiency, exceptionally smooth transition into the midbass range and extended high frequency response. For high level sound reinforcement in dancing halls and stadiums. Humidity protected.

SPECIFICATIONS

Nominal impedance	8 Ω
Minimum impedance @ 190 Hz	7,1 Ω
Power handling	
RMS	600W
Continuous music	1200W
Sensitivity (1W @ 1m)	106dB SPL
Maximum SPL (calculated)	136dB SPL
Power compression @ 0 dB	3,2 dB
Power compression @ -3 dB	2,1 dB
Power compression @ -10 dB	0,7 dB
Frequency response @ -10 dB	80 ÷ 20000 Hz
Nominal coverage	
Horizontal	60 degrees
Vertical	60 degrees

COMPONENTS

Woofer	15WS600 - 1pcs.
Compression driver	D3300Ti - 1pcs.
15" horn	HG-15 - 1pcs.
2" horn	HL4750 - 1pcs.

MOUNTING INFORMATION

Number of riging points	3
Net weight	34kg
Dimensions (WxDxH) mm	510x730x790
